

## HOW NFIA-NSW CAN HELP YOU Learning and Development.

In conjunction with AMCA-NSW, this Association is committed to an industry-wide program of learning and development. Details of how the program is financed and administered, and the current training calendar, are attached. NFIA members are offered the same training rates available to AMCA members.

## Enterprise Bargaining Agreements

The Association negotiates workplace agreements in conjunction with its members, arranges for those agreements to be registered in the Workplace Commission and keeps members up-to-date with changes to rates of conditions, pay and allowances.

## Award and Employment Enquiries

Even in the best of businesses, employment disputes need to be resolved from time to time. The Association staff and Directors are here to help as required.

## Occupational Health and Safety Issues

OHS is likely to be one of the major industry issues in this and the next decade. Each member is given an OHS manual on CD, free of charge. The manual contains work method statements, site-specific plans and general policies and procedures, which each member is free to adapt to his or her particular organisation.
